ENERGY EXPO® 2025
HIGHLIGHTS

The second edition of ENERGY EXPO®, held between May 22 and 24, 2025, at Laminor Arena in Bucharest, Romania, **proved once again that ENERGY EXPO® is more than just an exhibition fair**. It is a platform that unites industry leaders, government officials, innovators, and consumers. It is a hub for fresh ideas, powerful connections, and real solutions. A launchpad for start-ups, a stage for groundbreaking prototypes, and a space for voices to be heard.

Global Participation — ENERGY EXPO® 2025 attracted more than 280 exhibitors, special guests and partners from over 30 countries across four continents, a 65% increase compared to the 2024 edition.

Attendance — At the same time, the number of unique visitors recorded during the second edition increased by 30%, reaching over 9.150 attendees. Among the visitors, delegations from 14 countries and 5 Romanian municipalities have been present.

Conferences & Workshops — 14 conferences and workshops have been held during ENERGY EXPO® 2025, featuring more than 83 industry experts, with discussions tailored to all major sectors — B2B, B2C, and B2G.

This year's ENERGY EXPO® was all about innovation, education, and community — Together with Techcelerator, ROTSA, Ascendis, PPC Romania, and the Romanian & Moldovan Energy Ministries, we kicked off the first CleanTech Hackathon in S-E Europe: 130 participants, 17 mentors, 48 hours, 30 real-world solutions. At the same time, we launched LOOP Academy, where 370 students and 20 teachers from 15 Bucharest schools reimagined Brâncuși's Endless Column entirely from recycled materials. And we didn't stop there — with support from partners like Yellow Tree, ParkLake, Destiny Park, EDENLAND Park, PPC Romania, Nu Mai Port, and Cubic Center, we collected 18,200 plush toys to build the largest Endless Column ever made of toys, later donated on Children's Day with Taxiul cu Bomboane to kids who needed them most.

Awards & Prizes — Through the CleanTech Hackathon, #LOOPChallenge, and Treasure Hunt, this year ENERGY EXPO® awarded prizes totaling over €50.000, highlighting its commitment to innovation, education, and community engagement.

ENERGY EXPO® 2026

WHAT'S IN STORE?

Building on the success of our second edition, we're back on Sept 24-26, 2026, at ROMAERO in Bucharest, Romania. We aim to make this edition bigger, bolder, and more impactful, offering even more opportunities for networking, innovation, and engagement.

Here's what's in store: strategic partnerships with government and media, high-impact B2B and B2G networking, exclusive B2C engagement, an interactive treasure hunt, live showcases of cutting-edge energy tech, expert workshops, thought-provoking conferences, and a target of over 300 global exhibitors, sponsors, and special guests.

Just like last year, ENERGY EXPO® is the event that brings the entire energy sector together, so we welcome companies from all segments — startups, research institutions, distributors, and more — to exhibit. The full list of included sector can be found soon on www.energyexpo.ro.

WHY ROMANIA?

Romania stands as a dynamic hub for energy innovation and investment in 2026. With a robust commitment to renewable energy, a skilled workforce, and strategic EU support, Romania is transforming its energy sector to meet net-zero goals.

The country offers favorable regulations, abundant resources, and growing infrastracture for wind, solar and hydrogen energy.

- €20 Billion EU Support for Green Transition
- Hydro Storage and Battery Reserves at 880MW by 2030
- Net Electricity Exporter by 2030
- Annual 800 MW Rooftop PV Installation Target
